LUXURY VINYL TILE

CREATION / ARTLINE

▶ CREATION WOOD / ARTLINE WOOD

CREATION WOOD, MINERAL AND DESIGN are synthetic, decorative, flexible, antistatic, abrasion group T floorcoverings available in tile or plank form, with bevelled edges. They comprise a transparent wearlayer 0.7mm thick, a design film and a compact underlayer.

They are compressed and grained at high pressure.

They benefit from a polyurethane surface treatment (PUR), making maintenance easier and eliminating the need for initial polishes.

Their overall thickness is 2.5mm.

▶ CREATION MINERAL / DESIGN / ARTLINE MINERAL

ARTLINE WOOD AND MINERAL are synthetic, decorative, flexible, antistatic, abrasion group T floorcoverings available in tile or plank form.

They consist of a transparent wearlayer 0.3mm thick, a design film and a compact underlayer.

They are compressed and grained at high pressure. They benefit from polyurethane surface treatment (PUR), making maintenance easier and eliminating the need for initial polishes.

Their overall thickness is 2mm.

▶ CREATION MINERAL SLATE*

CREATION MINERAL SLATE is a synthetic, flexible bonded floor-covering available in tile form with bevelled edges.

They consist of a homogeneous wearlayer 2.4mm thick.

The floorcovering is compressed and grained at high pressure.

They benefit from polyurethane surface treatment (PUR), making maintenance easier and eliminating the need for initial polishes.

* 0111-0113-0114

CREATION / ARTLINE

- **CREATION** is the first choice for public and commercial areas and is designed for high traffic wear.
- **ARTLINE** is suitable for domestic use and for low traffic use including hotels, nursing homes, offices, etc.
- **CREATION & ARTLINE:** low maintenance due to Polyurethane surface treatment (PUR).

INSIGHT

▶ INSIGHT WOOD / MINERAL / URBAN

INSIGHT WOOD, MINERAL AND URBAN are synthetic, decorative, flexible, antistatic, abrasion group T floorcoverings available in tile or plank forms, with bevelled edges.

They comprise a transparent wearlayer 0.55 mm thick, a design film and a compact underlayer. They are compressed and grained at high pressure.

They benefit from a polyurethane surface treatment (PUR), making maintenance easier and eliminating the need for initial polishes.

Their overall thickness is 2.5mm.

INSIGHT

- ▶ **INSIGHT** is designed for medium and high traffic wear.
- ▶ A large palett of Wood and Mineral designs.
- ▶ Low maintenance due to Polyurethane surface treatment (**PUR**).
